

## Objectivity Partnership Agreement

We who sign this document agree to act as each-others Objectivity Partners. We will help each other in the endeavor of learning and putting into practice the Solution-Based Operating Program. As such, we will point out the characteristics of each so we can become aware of when we are operating in either the Conflictive Operating Program or the Solution-Based Operating Program. We promise to communicate with each other with Respect, Patience and Kindness. We will do our best to control our impulses to become offended or angry with each other during this process. We will help each other count our blessings and develop solution-based strategies to solve our problems.
